THE PROPOSED AMENDMENT. [Drawn by a we'l-known Supreme Court Judge.]
7. All proceedings under this section (Sec. 291, Chap-

676, Laus of 1881, and Chap. 46, Laus of 1884), when a commitment shall have been made, shall be subject to review by any court of record, upon certiorari on the facts and the law, and in such a proceeding the commitment order or judgment may be affirmed or reversed or modified in such manner and to such extent as may eserbest, or a rehearing of the charge ordered.

Supt. Jinkens, of Mr. Gerry's Society, was asked this morning by a reporter of THE EVENING WORLD if it was true that the Society intended to give back the child. Tina Weiss to her parents, and if so when they might expect to see her.

That is a question," replied Mr. Jinkens, 'about which the child will have something to say herself. We are not going to furnish any information to THE EVENING WORLD as to our intentions. If the child does not want to return to her parents we are not going to compel her to do so by any means. She is of an age to decide for herself, and I can say further that she is intelligent far beyond her venrs."

" How about the parents-are they not respeciable and worthy people ?"

' No, sir, they are not. We have our own reports and those of the Society of the United Hebrew Charities to back us up. Mr. Tuska and Mr. Allen, who is one of our own directors, investigated the matter a long time ago. before the case was made public, and found

that the parents were not fit persons to have the care of the child,"

"But Mr. Tu-ka says he has recently looked into the matter and discovered that the So-ciety has made a great mistake, and that the parents are perfectly competent. How is that?"

'He did make the statement.—ED.]
'Do you think the Society investigated the matter properly before the child was com-

matter properly before the child was committed?"

"Certainly we did. We held it for over a week, and found that the father had abandoned it as well as the woman who had it in charge previously. The child, in fact, gave itself up and asked to be sent to an asylum."

"Did not the father make an application for the child within a few days after it was committed?"

"No. We never heard from the parents of the child at all until six months after it had come into our charge. [The father called at the Society's office ten days after the child's arrest.—ED.] The father came arround in June last for the first time. We looked up the case again and found that the child's commitment was perfectly justified, and today we are as convinced as ever that we did the right thing.

"I am not infallible." continued Mr. Jinkens, "but if you had had the experience, that I have with these Polish immigrants you would not believe what they say. [Everything goes to prove that Weiss is honest and truthful.—ED.] They send out their children to beg at all hours of the day and night, and are notorious for letting them run loose generally.

"It is the same in this case as in all others.

It is the same in this case as in all others

"It is the same in this case as in all others. [There is no ground for this statement.—ED.] When our man investigated the case last he found the father drunk on the floor [This is not true.—ED.], and the landlord of the building said that he was going to turn out the whole lot of them."

Mr. Dantziger, the landlord, of 192 Broome street, was afterwards seen by the reporter, and he said that he had known the Weiss family ever since Mrs. Weiss had come to this country. He confirmed the statement that they had at first lived in the rooms of a family who had come over with them, but added that he had never had any trouble whatever with them.

SUPT. MURRAY BELIEVES HE'LL FIND HIS STRENGTH IN FLORIDA.

"Good'by," was the parting word of Police Supt. Murray this morning as he shook the hand of an Eventee World reporter in the Pennsylvania Railroad depot in Jersey City. Then he passed through the gate and boarded the train which was to bear him on his journey to St. Augustine, Fla., where he will seek greatly needed rest and recuperation during the next thirty days.

The reporter had found the Superintendent in the waiting-room conversing with Inspector Steers, while his bright-eyed little daughter clung lovingly to him. Mrs. Mur-ray, who accompanies the Superintendent on his journey, stood near by talking with two lady friends.

lady friends.

Asked how he was feeling, Supt. Murray said: "Not very well. During the recent railroad strike I was on duty day and night—one one occasion twenty-two hours continuously—and I caught a very bad cold."

It was plainly apparent that the Superintendent was continuously—and in the superintendent was continuously—and in the superintendent was continuously.

It was plainly apparent that the Superintendent was quite weak and ill, from the pallor in his face, his subdued voice and his rather feeble movements. His appearance to-day was in striking contrast with that of the vigorous and active little man whom the reporter had seen a few days ago directing the movements of the whole police force.

Mr. Murray and his wife occupy a stateroom in a sleeping car, and will arrive at St. Augustine in thirty hours without change of cars.

The Superintendent has not been South before since he went with the army.

Unexplained Tragedy at a Brooklyn

A Man Dragged Past the Platform and

Elevated Station.

Killed.

Hours-Contradictory Statements.

Much uncertainty and even mystery surrounds the tragic death of a middle-aged German on the Kings County Elevated Bailroad yesterday afternoon. The body body lies in Undertake Ruoff's store, 109 Bushwick avenue, awaiting

the action of the Coroner. An Evening Would reporter visited the Nor trand avenue station, where the man was killed. As is usual in all such cases, the railroad employees kept close mouths, all claiming that they knew nothing of the affair, except that the man had been picked up from the ground, thirty feet below, breathing his last.

It was learned, however, that at about 5.35 P. M. a train of four cars bound for the bridge had just taken on several passengers and had started.

A middle-aged man, dressed as a mechanic, rushed past the ticket-office and attempted to board the train. The man at the chopping-box did not take particular notice of the passenger, and the first that was known of the affair came from the shouts of passers-by.

The fact that the train had already started

makes it pretty certain that the man tried to get on the last car.

There was a gateman on the front of the car, and if he saw the man he should have pulled

and if he saw the man he should had him on.

The train had moved about thirty feet and had been under headway about five seconds. From all accounts, the man was carried thirty feet along, where he was dashed against the guardiral at the end of the platform and then pitched head first to the street below.

Whether the man tried the front or rear platform and then put known, as the managers of the rail-

head first to the street below.

Whether the man tried the front or rear platform is not known, as the managers of the railroad absolutely refuse to say anything, except to deny that any of their trainmen saw the man rushing for the car.

The finan fell to the ground directly beneath the end of the platform. A crowd of people gathered around and an ambulance was sent for, but before it arrived the man died. Ambulance Surgeon Seider, of St. Mary's Hospital, refused to take the body, and it lay there in a pool of blood until nearly 7 o'clock, when the patrol wagon of the Fourteenth Precinct removed it to the Gates avenue station.

The body presented a ghastly sight. The head was terribly managled, the skull and the right temple being badly crushed, and there were signs of internal infuries, which, upon examination this morning, showed that a log and other bones were broken.

General Manager W. T. Groundie was seen by an Eyening Wonld reporter this mording.

"The Company has no statement to make," said he, in answer to a question. Upon being pressed, however, he said:

We have made a thorough examination and the man lost his life through his own carelessness.

the man lost his life through his own carelessness.

'There is a rule laid down to the gatemen that they shall not give the signal to start until the gates are closed, and when once they are closed they must not be reopened.

'Not even in a case of this kind, where a man's life depended upon his getting aboard?' asked the reporter.

'Well, after the above rule had been printed we amended it, and the gatemen were instructed that should any one be so foolhardy as to attempt to get on while the train was moving, to pull them on at all hazards.'

The reporter afterwards questioned two guards about the last order, but they both denied having heard of it. 'Our orders are to shut the gates, and if we open them we run the risk of getting into trouble," said one. 'If there is any such order I have never heard of it.'

to-day to appear when wanted.

Miss Norah was returned home, but as she tells Miss Norah was returned home, but as she tells a number of contradictory stories there is a chance of six or seven other small boys being arrested before the plain truth is known.

She walked into her mother's house a few minutes after 10 o'clock last night.

The poor woman was delighted to recover her treasure and asked. "Where have you been?"

'I was minding a baby at 122 West Forty-second street, "she replied.

This is only partially true. C. Edgar Dobson, the banjo expert, inserted an "ad" for a nurse girl on Tuesday. Norah answered it Wednesday. She took care of Mr. Dobson's infant Wednesday and Thursday, going away presumably to her home at nighttime.

She led her relatives and Capt. Ryan to infer that she had been in Mr. Dobson's family since Tuesday until she left there last night.

Mr. Dobson told an Eveniso World reporter something different this morning. When the reporter called at the girls home a man who said he was Mr. Burns refused to give any more information about the case.

Capt. Ryan was highly indignant.

'That family," he said, "has caused the arrest of two innocent lads and thrown suspicion on my son on account of that untruthful girl, and now I intend to make her tell the truth. I will sond a man there to-day and obligs her to tell the truth or arrest her for a change.

'She surely led me to believe that she had been living out at 122 West Forty-second street, since Tuesday, Now I am going to find out where she spent her nights," he concluded.

McCurdy, who took her to the Compton House, told the reporter that on Monday night he and Nora had watched a house burning on Third avenue until after 10 v. m., and then she told him she was afraid to go home.

She asked him to see her as far as the Compton House, saying she had \$6, and could pay her way. a number of contradictory stories there is a

A Salmon Fishery for Confecticut.

[SPECIAL TO THE WORLD.]
NORWICH, Conn., Feb. 15.—Decades ago the ivers Thames, Shetucket and Quinebaug abounded with salmon which grew to great pro portions, many having been caught weighing seventy pounds. But with the advent of navigation upon the Thames the large schools of salmon were driven from their usual haunts and have been seen no more. Z. R. Robbins, a hunter, fisher and general supporter of gontlemantly sports, has a scheme for staking out an extensive fishing ground in the Quinebaug. Weirs will be constructed in the Shetucket, at the Greenville dam, which will form the entrance to the fisheries. A chute will be built at the Greenville end, so that the salmon can get out into the Thames and to the sea. The Shetucket and Quinebaug rivers are free from navigation and are unusually favorable for the propagation of salmon. The plan has been favorably received and the work of laying out the fishery will be begun at once, after which the eggs will be planted and the salmon will grow. seventy pounds. BRIBERY

2 O'CLOCK.

C. P. Kilby Paid \$500 to Get His Market Stands.

Said to Have Taken It.

Startling Testimony Comes Out at To

Day's Investigation.

Assistant Clerk of Markets Schoonmaker

Levi Samuels, who somebody was exhauted to stand by " in a memorandum on file in the Comptroller's office, because his "name's in pocketbook," was recalled as a witness before the Commissioners of Accounts this morning. when the investigation into the allotment of

stands in the new West Washington Market was resumed. He produced the check for \$502, the proceeds of the subscription for the Hewitt campaign fund, which he had collected in the market and turned over to Superintendent of Markets Kelso.
The check was made payable to Mr. Kelso who endorsed it payable to the order of Conrad M. Smyth, as Treasurer of the Twenty-irrs Assembly District County Democracy Committee, and Mr. Smyth indorsed it as such Treasurer,

and Mr. Smyth indorsed it as such treasurer.

For deposit."
Mr. Smyth is the present County Demberacy leader of the Twenty-first District.
A letter was read by Commissioner Holahan from A. Vanderbeck in explanation of the evidence of his clerk. William Callahau, regarding the signatures to the applications of both the writer and Callahau.

Callahau did not know who had signed the application, but Mr. Vanderbeck wrote that his relative, Deputy Tax Commissioner Frederick C. Wagner, had been authorized to sign for both.

C. Wagner, had been authorized to sign for both.

Capt. Wagner appeared and testified to the truth of this statement.

Philip Howell, of 82 East One Hundred and Eighth street, who sublets his two stands in the new market to David Mandel, next testified.

He said that be leased the stands to Mandel for three months because he was not prepared to occupy the stands until that time. He did this, he said, because of the Comptroller's announcement that permits would be revoked where stands were not occupied by Jan. 26.

Mr. Howell testified that he made this arrangement with the consent of Chief Clerk Graham McAdam.

The witness pays \$11 per week rent to the city and receives \$29 from Mr. Mandel.

He denied that he had made any agreement with about 10 will he stands to him for \$2,500.

The witness stated that although Mandel fitted up the stands he had contributed \$100 towards the work.

At this point ex-Assemblyman McAdam arose and read the following letter:

FER. 15, 1889.

FEB. 15, 1889.

Mr. Geo. H. McAddot.
DEAR Sin. My avent's has been as el to lara-graphs in the newspaper in repard to the investigation market.

Mr. McAdam asked that it go upon the record that he appears at this investigation representing Mr. Kelso's interests.
C. P. Kilby, a Jerreyman, holding two stands in the new market, was taken in hand by Mr. Nicoll and gave the most startling testimony of the day

'Yes, sir."

'To whom was it paid?"

'To a friend of mine—a Mr. Schoonmaker."

'Mr. Schoonmaker is a cierk in the Finance
Department, isn't he?

'I think he is. He's employed by the city.

'As a cierk of markets," was the positive
statement of Commissioner Holahan.

'Who paid this money for you?" asked Mr.
Nicoll.

"Who paid this money for you?" asked Mr. Nicoll.
"Henry Grimm, a man in my employment." All of this interesting story was drawn out because of a statement made by Mr. Kilby to his friend, M. M. Walsh, of 115 Broadway, who had evidently "leaked."

The witness detailed the conversation with Schoonmaker which led to his payment of \$500. Mr. Kilby was very much exercised because he was a Jerseyman, and was fearful that the business which he had spent twenty-two years in building up would be ruined by his exclusion from the new market under the Comptroller's ruling.

He therefore set about to make himself solid, and approached Schoonmaker, asking him ho much it would cost for him to get the stand. After several conversations on the subject wit Schoonmaker, the latter told Kilby that it would cost him \$500.

In November Kilby was at Kingston, Md., and teletegraphed to his man Grimm to draw up a check for \$500 to his own order, cash it and pay Schoonmaker. On Nov. 20 Kilby's permit was issued.

Pennsylvania Courts. [SPECIAL TO THE EVENING WORLD.] SCHANTON, Pa., Feb. 15 .- Rev. M. P. Stack Catholic priest, died here last Tuesday. Father Stack led an uneventful life of late years, but sixteen years ago his name was a household word:

household word.

He was then pastor at the Williamsport Catholic Church, and was removed by Bishop O'Hara for refusing to make an accounting of monies being used in the erection of several diocesan buildings.

Father Stack appealed to the courts in contention of the Bishop's right to remove him, and after long litigation the Bishop was sustained.

He was restored to the priesthood a few years later, and a reconciliation between he and Bishop O'Hara was effected.

Fire in the Letter-Boxes.

Fire did slight damage this morning in the five-story brown-stone flat house 431 East Sev-enty-ninth street, owned by William N. Libby, a former partner of A. T. Stewart. It is sup-posed that the fire was caused by the placing of lighted matches in the letter-boxes by boys who were trying to discover if there were any letters in them.

Pickpocket at the Wedding Feast. Jenny Jacobs, of 171 Division street, had Abraham Robinortz, alias "Greeny," of 16 Audiow street, a youth of seventeen, arrested to-day for picking her pocket of \$12 and steal-ing her breast-pin from her at a wedding feast at Harris Assembly Hooms Sunday night. At Essex Market he pleaded guity and was held.

moved fifteen feet further north, thus placing it beyond the required limit.

The Inspector had not yet arrived and bystanders said that James Roberts, the proprietor of the road-house at Sixth avenue and One Hundred and Tenth street, whose stables encroach thirty-five feet over the street line, had obtained a further extension of time, to enable him to provide a new shelter for his horses.

The rear of the club-house is provided with seven stalls, which Mr. Roberts may use in case of emergency, and it is hinted by people in the neighborhood that the entire club-house may be transformed into a shed, where Mr. Roberts's guests may place their horses.

In obedience to the orders of Inspector McGinness, Manager Mutrie removed a part of the fence fronting on Sixth avenue, but afterwards caused boards to be placed in the space in order to prevent pedestrians from failing into the inclosure.

These boards were at once removed by Mecliosures, and a few blows from a hatchet marked that portion of Roberts's stables which must be removed.

Another difficulty now confronts the New York Basebail Club in the shape of a proposed plaza to be constructed by the city at the junction of One Hundred and Eleventh street and Fifth avenue.

tion of One Hundred and Eleventh street and Fifth avenue.

If this is done it will necessitate the slicing off of a few feat of the grand stand, and in such a case the Pole Grounds will be a wreck indeed.

Neither Mr. Roberts nor Manager Mutrie were at the grounds this morning, and the few bystanders who were gathered around discussed "McGinness's mark," as the gap in the stables was facetiously referred to, and speculated as to the possibility af the inspector's appearance with his men, and of the destruction of the stables. Times solicitor and agent, was continued.

Witness swore neither he. Houston, nor Macdonald knew where Pigoti obtained the Paraell letters. Thay never asked, because Pigoti from the first declared he would never reveal the circumstances of their discovery and the means by which he gained powession of them, except in a court of law. All that was known was that Pigoti received them in 1880.

Sir Charles Russell examined the witness very closely as to the various forms of Parnell's signature which had been produced in the Court. It was found that some were genuine and some spurious. spurious.
Witness was required to distinguish between them and explain their origin.
The interesting fact was elicited that Mr. Labouchere had offered Pigott £1,000 if he would enter the wittess-box and tell the truth as to the author of the letters.

SEPECIAL TO THE EVENING WORLD, I HANOVER, N. H., Feb. 15,-The Dartmouth Medical College has found a most startling case of chronic hydrocephalus, or, in plain English, water on the brain, and already the medical fraternity are puzzling their brains over the strange human freak, whose head weighed forty-five pounds and its body only seven pounds. No similar case has ever been known to reach such enormous dimensions. The child has just died, aged thirty-two

Boulanger Organs Triumphant and Demanding the Resignation of the Deputies.

Committed Political Suicide.

IBY CABLE TO THE PRESS NEWS ASSOCIATION, 1 Panis, Feb. 15. - Different interpretations are given to the vote of the Chamber yesterday. ome say it was not intended as a declaration of want of confidence, but was seized upon by M. Floquet as a pretext for resigning, and thus escaping from a situation which had become in-

tolerable to him and his colleagues, The vote was unexpected. The resignation was still more surprising, and can only be regarded as an act of political suicide on the part of the Cabinet.

The Opportunist journals are not dissatisfied with the result. They say it has cleared the ground for President Carnot and left him a free hand. He can now form a Cabinet in accordance with his own views as a conservative Repub-

ance with his own views as a conservative Republican.

The Boulangist organs loudly sound the note of triumpn. They claim the victory as theirs and declare that dissolution of the Chamber is more than ever necessary.

They call upon the Deputies to resign as did the Ministers, for both have been condemned by the country. An appeal should now be made to the people. It is the duty of parties which have any patriotism left.

The Radical press are in despair. They proclaim that a concentration of the Republican groups is impossible.

In the mean time, notwithstanding the crisis, so fraught with tremendous possibilities, Paris is quite. There has been no disorder and none is threatened.

HEIRS OF ST. THOMAS'S SEAT-OWNERS DIVIDE \$12,000 PER ANNUM.

shows what an excellent business investment for their heirs was made by some of the original pew owners of St. Thomas's.

The sexton explained that in the old church at Broadway and Houston street a number of pews were bought outright. Of course the perpetuity of possession descended to the heirs of these purchasers.

Many of these heirs do not attend the church now and the pews they own are sub-let. Money received for these seats is turned over to the owners of the pews, and thus there is each year a sum ranging from \$12,000 to \$15,000 to be divided among these people from an investment made by their ancastors in an enterprise which can, never cost the descendants a cent unless they choose to have it so.

The rector of St. Thomas's, Rev. Dr. John Wesley Brown, is non-committal. He will see Mr. Williams and talk with him as to what he really said.

Prominent members of the congregation utterly disclaim that their church does not want strangers to attend its services. They declare that they are welcome, and that seats are usually found for all who come.

The matters has taken a broad interest, and is being vigorously discussed in other churches, whose rectors, while disclaming any thought of criticising the affairs of a parish not their own, agree that the principles alleged to be set forth by the matter-offact sexton at St. Thomas's are out of the line of church purposes and Christian endeavor. of church purposes and Christian endeavor.
